Kevin van den Elzen - drums

**Achtergrond:**

The Kevtonians are a group of musicians that form a high-energetic post bop band. The musicians met each other at the Conservatory of Amsterdam where they felt a connection through music and friendship. The band is very much inspired by the hard-bop era of the Blue Note Records. This mixed with a good dose of high-energy, continuously evolving and friendship makes the Kevtonians a musical experience which you will remember!
