**Achtergrond:**

Tristan's music can best be described as feel good vintage Acid Jazz music with the energy, vibe and sound of 2014 by some of today's best contemporary pop/jazz musicians from Europe. Funky rhythm- guitars, Hammonds, Fender Rhodes and synths, and a rhythm section that has been playing together for decades. All this gives singer Evelyn Kallansee the solid ground to make her beautiful vocal sound shine. It will bring you back to that great sound of the seventies.
