Big Band olv Jana Rohloff

Achtergrond:

In 2008 ambitious young musicians from all over Mecklenburg-West Pomerania founded a big band in Rostock. Within a period of only few years the band became one of the most recommended big bands of the federal state for which they competed in the 8th German orchestra competition by the German Music Council in 2012. In the End the Jellyfish Jazz Orchestra won it - that was quite amazing and unexpected, but made them also realize that they're on the right way.

Because their aim is: Making high quality big band jazz with all their love and fun and transfer this to the audience – just like the famous song “It must be jelly ‘cause jam don’t shake like that!”
